Subject: google rating & diaspora investor funnel

Dear Mr. Kwati,

Noticed Wisdom Kwati Smart City is developing landmark projects across Abuja and Karu, yet your Google Business profile sits at 2.7 stars from unmanaged reviews, and key project pages rank on Page 2 of Google.

For UK and US diaspora investors conducting online due diligence, this creates immediate trust hesitation and drop-offs during KYC onboarding.

Put together a 2-minute executive brief showing how automated investor feedback workflows and technical search optimization protect brand equity and accelerate offshore capital deployment.

Opening Message:

Good day, Sir. Joel calling / messaging.

Noticed Wisdom Kwati Smart City is delivering landmark developments across the FCT, but unmanaged reviews have left your Google Business rating at 2.7 stars, and key project pages are on Page 2 where diaspora buyers miss them.

We structured an automated investor onboarding and Google reputation recovery workflow to resolve this.

May I send the 2-minute executive PDF brief to your office email or here on WhatsApp?
