

The 10-Second After-Hours Dispatch Architecture

Standard Operating Procedure & Automation Logic for \$1M-\$10M Plumbing, HVAC & Electrical Fleets

⚠️ **The \$14,500/Month Emergency Latency Gap**

In our trade fleet audits, **17.4% of high-intent calls arrive after 5:00 PM or weekends**. When dropped to voicemail, 82% immediately dial competitor #2. In emergency trades (\$2,500-\$3,500 ticket size), 4 missed calls = **\$14,500/mo uncaptured margin (\$174,000/year)**.

1. Instant 8s Trigger

Inbound call drops → Webhook detects unanswered call → 2-way SMS fires in <10s.

2. Interactive Triage

Emergency (Shutoff steps + on-call tech alert) vs. Routine (Auto-queued Mon 8:00 AM).

3. Zero Headcount

\$2,500-\$3,500 ticket captured in CRM without \$3,000/mo answering service payroll.

STEP 1

The Outbound SMS Interceptor Copy & Logic

"Hi, this is [Company Name] Emergency Dispatch. We see you just called. Are you experiencing an active water leak, gas smell, or safety hazard? Reply YES for immediate emergency technician dispatch, or NO for standard priority service."

Webhook Trigger: Twilio / ServiceTitan missed-call status

Response Window: <60s (captures 78% of callers)

STEP 2 The Dual-Branch Automated Decision Tree

Customer Reply	Automated System Action	Outcome & Business Impact
Reply: "YES" (Emergency)	1. Sends instant shutoff valve safety instructions. 2. Pushes high-priority SMS & mobile app alert to on-call tech. 3. Holds priority job in CRM dispatch tray.	\$3,500 Job Won. Customer stops calling competitors on Google Maps.
Reply: "NO" (Routine Quote)	1. Sends self-service calendar link for next-day inspection. 2. Queues record into Monday 8:00 AM CSR call list. 3. Suppresses on-call technician phone notifications.	Zero Burnout. Weekend family dinner protected. Zero overtime payroll waste.

STEP 3 Financial Leakage & Recovery Model (\$3M Trade Fleet)

Metric	Manual Voicemail (Current)	10-Second Automated Triage (Optimized)	Net Monthly Recovery
After-Hours Calls / Mo	32 Calls	32 Calls	—
Capture & Booking Rate	12.5% (4 Jobs)	46.8% (15 Jobs)	+11 Additional Jobs
Average Emergency Ticket	\$2,850	\$3,150 (Choice Quoting)	+\$300 per ticket
Monthly Gross Revenue	\$11,400	\$47,250	+\$35,850 / month
