Target: Warren Stroud or Ashley Stroud

Gatekeeper Opening:

Hi, quick question — who manages your ServiceTitan dispatch board and online booking setup? Is that Warren or Ashley?

Direct Pitch (Once Connected):

Hey Ashley, Joel calling. You weren't expecting my call — got 30 seconds, or did I catch you in the middle of dispatch?

I noticed Plumbing Outfitters runs a top-tier operation with 4.9 stars across 417 reviews using ServiceTitan. But when I tested your online scheduling, web requests route to manual intake forms instead of live real-time ServiceTitan capacity booking.

Curious — is connecting instant web booking directly into ServiceTitan something you're looking to automate, or do you prefer having the office manually triage every request?

Subject: servicetitan web booking gap

Warren and Ashley,

Noticed Plumbing Outfitters runs an elite operation with a 4.9 rating across 417 reviews powered by ServiceTitan.

However, your website scheduling currently routes through manual forms rather than live ServiceTitan capacity booking. That manual step creates office dispatch bottlenecks between your North Mopac and Taylor service hubs.

Put together a 2-minute diagnostic showing how live web booking syncs directly into ServiceTitan and captures dominant Map Pack rankings in Taylor and Hutto.

Worth a look?
